

*Hailey's
dream*

Hailey's dream

Once upon a time there was a smart
and beautiful girl named Hailey.

Looking at a starry night,
Hailey fell asleep.

She was so happy that
she was jumping and
smiling at the same time.

Suddenly, she saw a caterpillar
mingling around a tree.

Hailey was very curious, so she came closer
to see what was happening.

All of a sudden..... miracle!

The caterpillar became
a pink butterfly
and soon after,
the butterfly becomes
a small sparkling fairy.

Hello Hailey, fairy said, how are you?

Well, I'm great, Hailey replied. Who are you and how do you know my name?

I'm your special friend Glory and I know your name because you are famous?

Really, I'm famous, how?

In this dream, you will find out how.

OK, said Hailey, I am a bit confused. I guess you know the way?

Of course I do. First of all, you have to take me in your hand. Then, I will tell you about different ways to become well known.

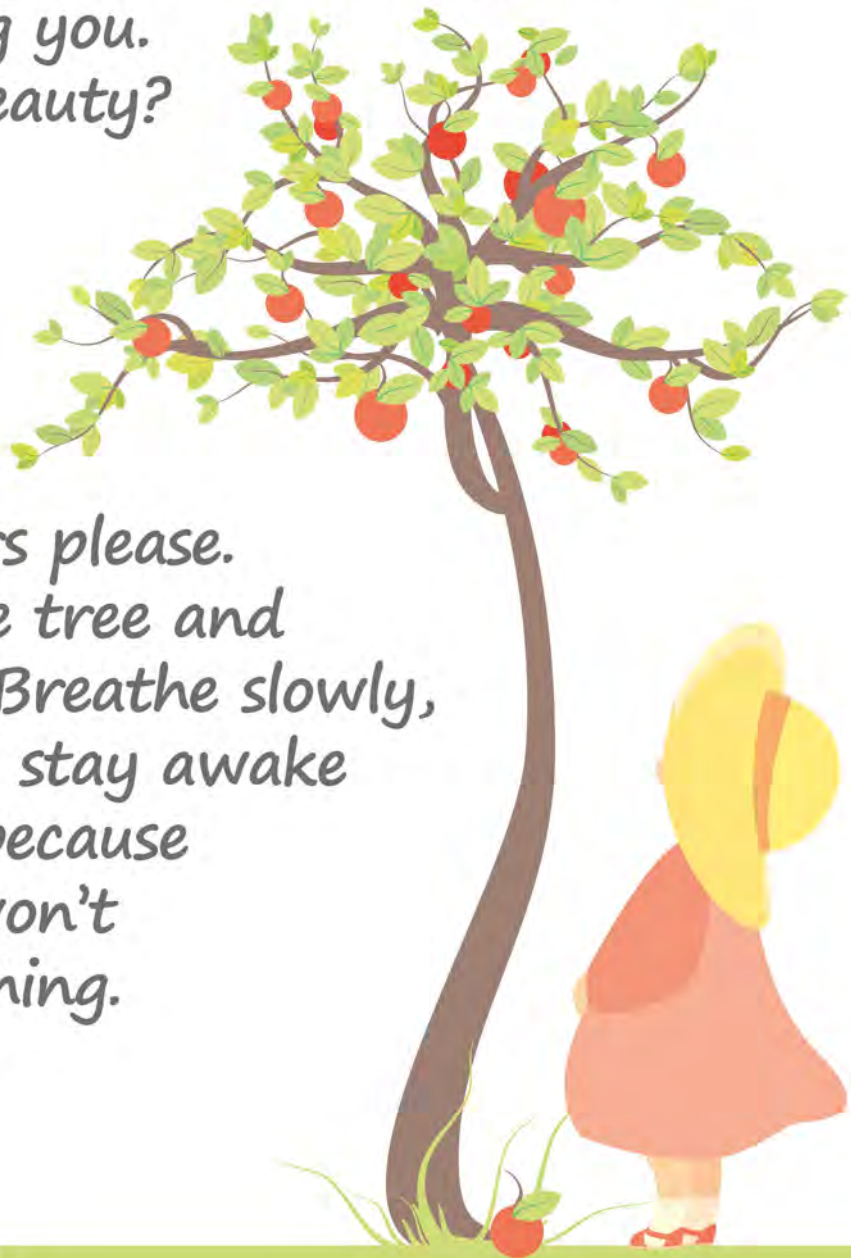

You should imagine yourself doing the things I'm telling you.
Can you do it beauty?

I think I can.

Excellent!

Sit in the flowers please.
Lean against the tree and
close your eyes. Breathe slowly,
but take care to stay awake
in your dream because
otherwise you won't
remember anything.
Are you ready?

I am.

Enjoying in Hailey's gentle hand, Glory started: "One who wants to be famous has to choose the right way."

People can become famous
for doing bad things like
lying, stealing, smoking,
drinking, being mean
and unkind.

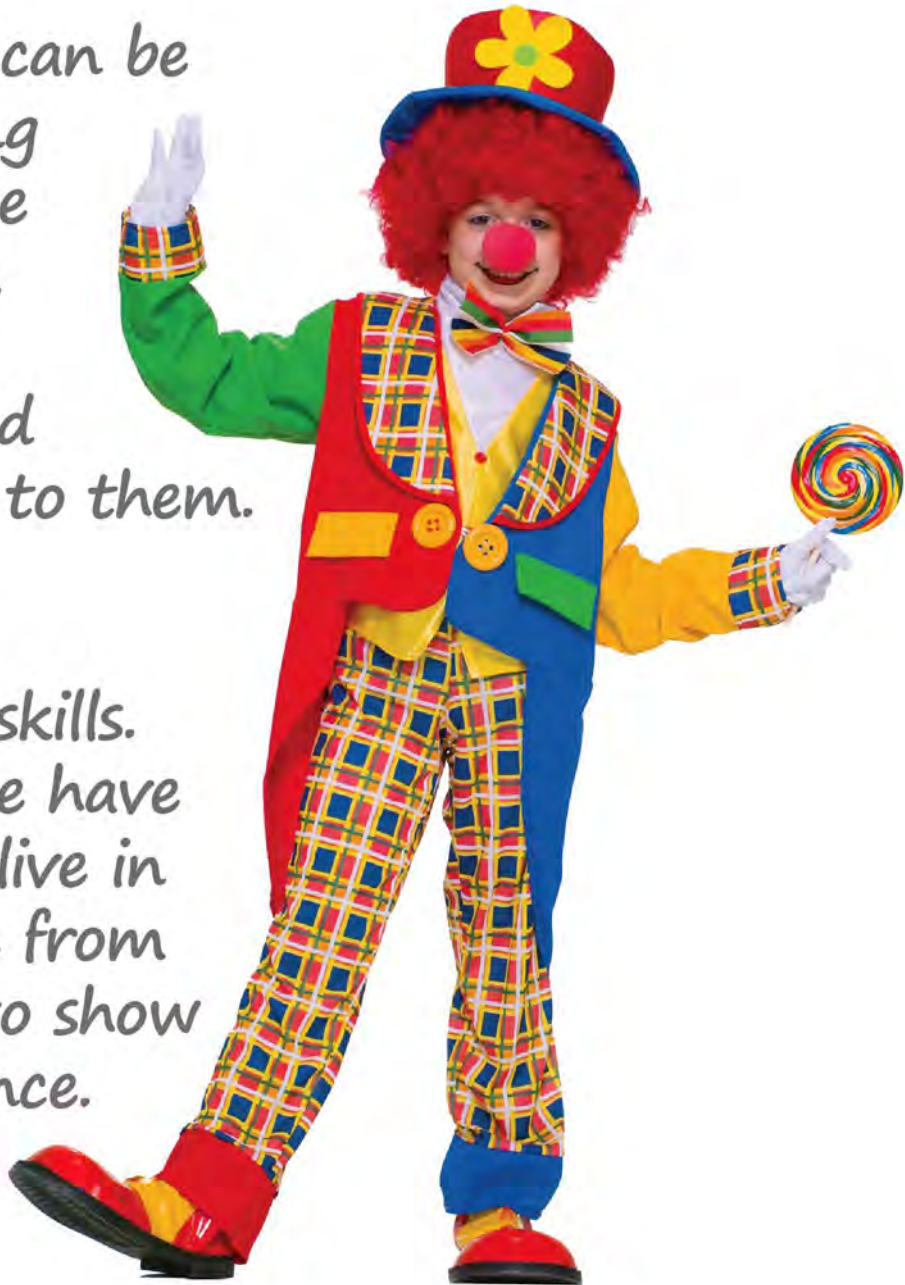

People know and avoid
these kinds of people.

You can watch them
in the news, everybody
knows them, but they
don't have friends.
Nobody loves them and
they are very, very sad.

Then, someone can be famous for doing funny things like people in circus. They have a big audience and people applaud to them.

Children adore watching their skills. But these people have no home. They live in tents and move from town to town to show their performance.

Sometimes is funny to do something that nobody before didn't.

A lot of people become famous like this – someone for having extra-long hair, the biggest toy collection or else.

Longest distance walking over hot plates

Most spoons balanced on the face

Longest hair (female)

Longest duration balancing on four fingers

Largest bubblegum bubble blown

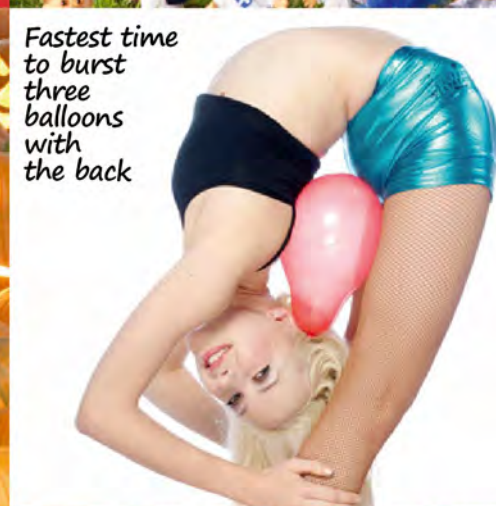

Largest collection of gnomes and pixies

Longest time controlling a football whilst lying down

Fastest time to carve one tonne of pumpkins

Fastest time to burst three balloons with the back

Largest collection of pokémon memorabilia

Largest hiking work boot

Most modelling balloon sculptures made in one minute

Longest platform to platform
bicycle jump

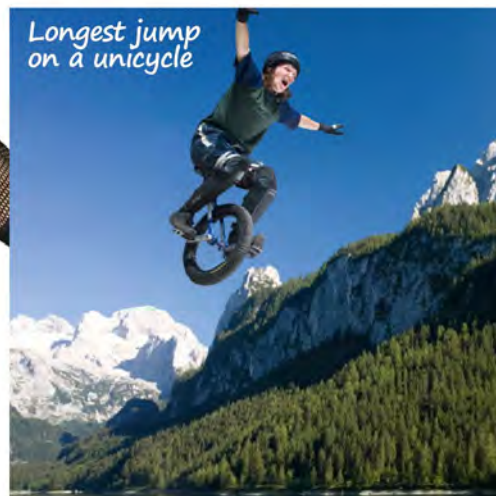

Dangerous things can make someone famous as well. Someone has to be very brave to do dangerous things. These peoples' actions are breath taking, but they can be seriously injured and become sad.

Deepest cycling underwater

Longest time
to hold
the marinelli
bend position

Longest jump
on a unicycle

The best way to be famous is for doing something good or nice.

*People who do good are loved,
they have many friends
and they are happy.*

Good things to do are
– helping people,
children, animals,
the planet...

Nice things to do are
– singing, dancing,
acting, painting,
writing, playing sports,
cooking, building...

OK, I want to do
something good and nice.

But, what should I be from
all these things you told me
— Hailey asked the fairy.

Dear, you should always do
these good things and more.

The joy and happiness you felt
at the beginning of this dream,
you will again experience
when you do good things.

And remember, fame
and happiness are
sometimes hidden
deep inside
your heart.
If you don't
find them soon,
you have to be
patient,
try again
and never give up.

Don't worry,
it will happen for sure.

How do you know? –
asked Hailey once again

I know because
I only live in dreams
of special children
that will become
famous one day.

Famous for doing
great things.
